

NUEVA CONVOCATORIA/NEW CALL	
DATOS CONVOCATORIA ---- CALL DETAILS	
Título/Title	Trusted Digital Solutions and Cybersecurity in Health and Care
Objetivo/Aim	This call aims at multidisciplinary technologies and solutions in health and care with a focus on cybersecurity to assure data privacy, security and protection of health and care infrastructures. It addresses the need for secure and user-driven ICT-based solutions in early risk detection and interventions with big data approaches that enable aggregation of a variety of new and existing data sources such as medical records, registries, social platforms and other environmental, physiological and behavioural data, including data from large scale pilots on smart living environments. This call will contribute to the Focus Areas on 'Digitising and transforming European industry and services' and 'Boosting the effectiveness of the Security Union'
